Location

We are based in Nairobi, Kenya. With our main workshop in Kamulu, off Kangundo Road Block 10 junction. This is where we do our magic for offsite fabrication. We have the equipment and capacity to set up on-site workshop in the event a project would require such flexibility.

The full scope of our service is; interior design consultancy, interior build on-site works, offsite fabrication, visual merchandising and display, space planning and build for retail, master carpenters and metal fabricators working with mild steel, stainless steel and wrought iron.

In interior build we have in-house teams for flooring works (tile, wood, epoxy and stone), fit-out teams who work with solid wood, particle board, glass etc. We have in-house welders, plumbers and electricians. We have on contract HVAC technicians and refrigeration technicians who come in on project basis.

We combine our unique approach to problem solving with attention to detail. Due to the top of industry position we work to attain and retain, we are commitment to deliver exemplary outcomes and experiences for our all clients.
